## Why Your Customers Need Flexy- Cords

- Saves them time! No more untangling, winding and unwinding cords. Time is money! How much time are other cords costing them?
- Safer! No more danger of tangled cords or when using hedgers and saws. Great for Kitchen, bathroom, garage & outdoors.
- Saves Space! Neatly Stores in drawers, tool box, & kitchen cups. No more messy tangled cords.
- Soft coil pull! Will not pull out of socket when extended to great lengths.
- Proudly made in the USA! Get high quality while supporting jobs for Americans!

From the Desk  
of  
Philip M. Ramos, Jr.  
CEO & Founder

CONGRATULATIONS!

You are now owner of extension cords Made in the USA!

Approximately twenty-five years ago most extension cords were made in the USA. However, since the free trade agreement with China most extension cords are now made in China.

Flexy-Cord™ extension cords are proudly made in the USA by Philatron's workers with raw materials cultivated in the USA. When we manufacture and buy *American Made Products* we help support our country's manufacturing infrastructure and create jobs for Americans. *One of the missions of Philatron is to create more jobs for Americans.*

Whereas, extensions cords from China are cheaper, *they do not give the value in money saving time* that patent pending Flexy-Cord™ extension cords gives you with faster and tangle proof handling.

We hope you enjoy working with your Flexy-Cords™.

Thank you for your patronage in supporting USA manufacturers!

Sincerely,

*Philip M. Ramos, Jr.*

Multipak includes letter from CEO

## Flexy-Cord Multi Pak

- The perfect gift anyone can use
- Comes if five different sizes for a variety of uses
- Comes in a handy carrying case
